

# Nik Liotos bio

I, Nikolaus Liotos am writing this autobiography to supplement my nomination for executive board member

I have been an upstanding member of CUSW since 2015 as a 309A electrical apprentice for approximately 2 years

I was voted in as the workplace steward and have held that position for approximately 1 year

I am currently a part of the human rights, and the advocate training programs as I feel as a member of CUSW you should be involved and be prepared to assist your fellow members when it is required

My intent as an executive board member is assist with the decisions and matters involving CUSW and its members accurately and efficiently

I thoroughly feel that my experience and understanding of the needs of the members and CUSW in a modern day, evolving workplace can be of benefit to all

Thank you for your consideration
